

Multi-Unit System

Updating the gold-standard

INTELLIGENT PROSTHETIC DENTISTRY

Dental Group

Multi-Unit

Enhancing prosthetic flexibility in implant-supported dental restorations to elevate aesthetics, ensure a stable fit, and optimize the biomechanical and biological functionality of implant-supported structures.

Benefits and Technical Features:

Versatile

- Straight and angled variants (0°, 17°, 30°) with varying gingival heights are available to accommodate diverse soft tissue anatomies.
- Diverse range of components and accessories compatible with multiple restorative prosthetic solutions.
- Provide with carrier for easy handling.

Aesthetic

- TiN coating for improved tissue biometry and enhanced mechanical strength of the abutment.
- This coating enhances the aesthetics of the abutment with a gold colour. It also provides antibacterial properties that prevent the adhesion of micro-particles that could result in soft tissue inflammation.

Accurate

- Unique IPD attachments for three-dimensional implant acquisition compatible with restorative prosthetic solutions.

Multi-unit IPD abutments are meticulously crafted to rehabilitate both edentulous and partially edentulous arches, particularly when utilizing the clinically proven and scientifically supported all-on-4 treatment concept.

All trademarks and other distinctive signs, designs, patents, text, photographs, graphics or other creations of IPD are the exclusive property of Implant Prótesis Dental 2004 S.L. and are duly protected by legislation on intellectual property. Therefore, any use, reproduction or other form of exploitation of the exclusive rights of IPD requires prior written consent.

Trademarks and other signs of third parties used by IPD must be used with identification of the owner and in a manner that does not give the appearance of a commercial link.

The use of IPD products must be in accordance with IPD's instructions to ensure compliance with all procedures involved in the use of the product and in accordance with generally accepted good dental practice.
